

LEGISLATIVE GRAVEYARD PROJECT

On June 10, INDIVISIBLE Sacramento installed a "Legislative Graveyard" exhibit at the State Capitol that represented the bills (many of them bi-partisan) passed this year by the House and buried by Mitch McConnell in the Senate. These are bills that haven't even been scheduled for a Senate committee hearing. The 138 bills memorialized in this exhibit amounted to only about half of the total bills McConnell has killed so far.
